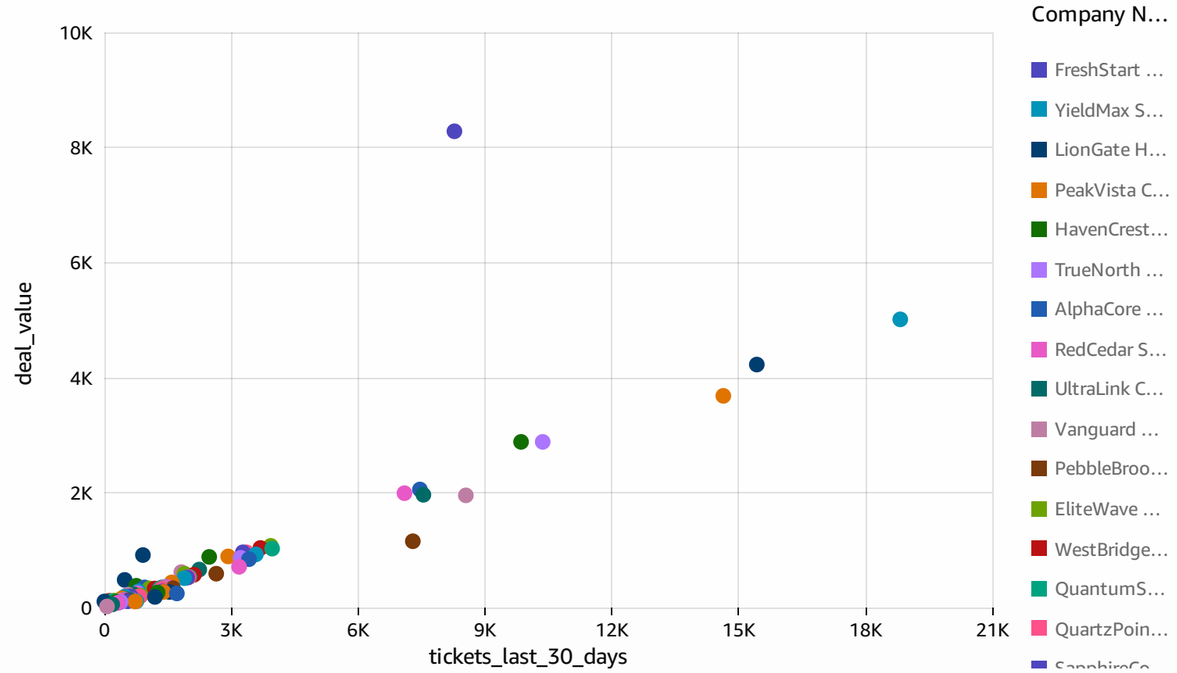
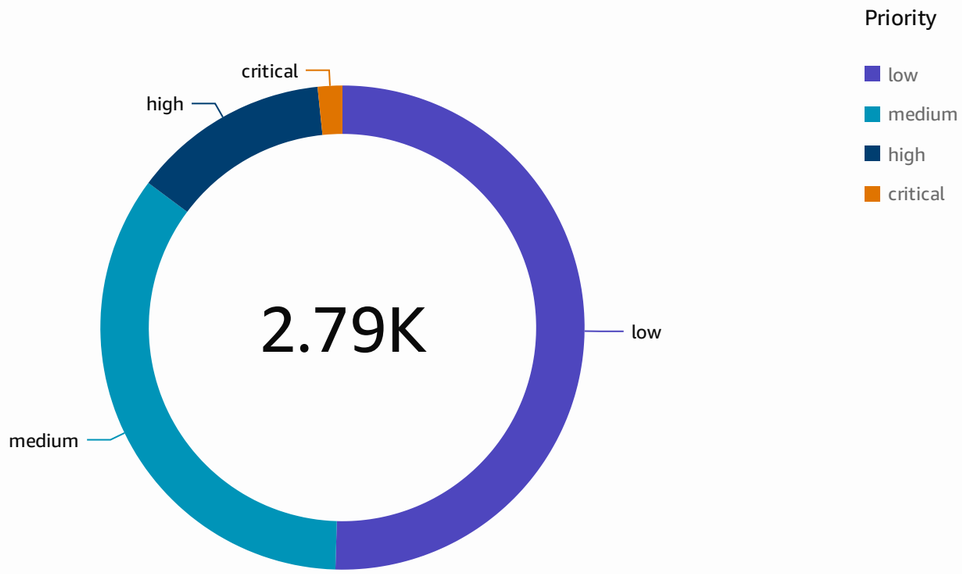
SHOWING UP TO 2500 DATA POINTS



Count distinct of Ticket_id by Priority



Group By: priority
Size: ticket_id (Count distinct)

Finding: Out of 3,000 total support tickets, 50 are marked as Critical priority and 400 as High priority.
Implication: High-value accounts experiencing these unresolved Critical or High priority issues represent a severe churn risk that threatens our recurring revenue.
Action: Immediately assign a dedicated Customer Success Manager to triage and resolve open Critical/High tickets for our top 5 highest-value accounts.
