**Lead_id**

63,420

**Finding:** The overall marketing campaign response rate is currently 27.2% (609 out of 2,240 total leads).
**Implication:** With over 70% of marketing interactions resulting in no response, a significant portion of our campaign spend is being allocated to inefficient targeting.
**Action:** Shift 15% of the upcoming quarterly marketing budget away from our lowest-converting channels and reallocate it toward our highest-converting channels.
